The Women’s Health Coalition advocates for:

- Improving availability and awareness of healthy lifestyle choices
- Facilitation of health screening in collaboration with community partners
- Promoting exercise as a prevention and management tool against chronic diseases such as obesity, diabetes, high blood pressure, heart disease and many cancers.

Coos County Women’s Health Coalition

Meetings are held
the third Wednesday
of each month at noon.

Come join us at the
Bay Area Hospital Community
Health & Education Center

May 2016
The Women’s Health Coalition was formed in the early 1990s from a networking of community organizations with a common concern for women’s health and a belief that healthy, empowered women are the key to a healthy community.

The Zonta Club of the Coos Bay Area played a key role in the Coalition’s formation with its goal to impact breast cancer awareness and create breast cancer screening opportunities for women who lack adequate medical care resources.

In recent years the Coalition’s programs have included such topics as menopause, osteoporosis, teen health, pregnancy prevention, female incontinence, and heart disease. Our current focus is to promote a healthy active lifestyle for women.

Mission Statement

To promote women’s health by providing information, teaching skills, fostering a health-oriented attitude, and facilitating screenings and follow up opportunities.

Current Projects

- Building a Healthy Walking Habit
- Participation in local health fairs
